Definitions

1. Infertility is defined as either:
 - a. The presence of a demonstrated medical condition recognized by a licensed physician or surgeon as a cause of infertility; or
 - b. The inability to conceive a pregnancy or to carry a pregnancy to a live birth after a year or more of regular sexual relations without contraception;
2. Basic Infertility Services are the reasonable and necessary services associated with the diagnosis and treatment as disclosed in this document, unless the UnitedHealthcare Medical Director or designee determines that:
 - a. Continued treatment has no reasonable chance of producing a viable pregnancy; or
 - b. Advanced Reproductive Therapy services are necessary, which are excluded under this supplemental benefit.
 - c. The Member has received the lifetime benefit maximum of six artificial insemination procedures, cumulatively, under one or more UnitedHealthcare Health Plans, has occurred.
3. Gamete Intrafallopian Transfer (GIFT). An infertility treatment that involves obtaining eggs (through medical and surgical procedures) and sperm, loading the eggs and sperm into a catheter, then emptying the contents of the catheter into the fallopian tube. The intent of this procedure is to have fertilization occur in the fallopian tubes
4. Advanced Reproductive Therapy, as excluded under this Basic Infertility Services benefit are:
 - a. In Vitro Fertilization (IVF). A highly sophisticated infertility treatment that involves obtaining mature eggs (oocytes) by surgical or nonsurgical procedures and combining the eggs and sperm in a laboratory setting. If fertilization and cell division occur, the resulting embryo(s) are transferred to the uterine cavity where implantation and pregnancy may occur.
 - b. Zygote Intrafallopian Transfer (ZIFT). An infertility treatment that involves obtaining mature eggs (oocytes) by surgical or nonsurgical procedures and combining the eggs and sperm in a laboratory setting. The fertilized oocytes, or zygotes, are transferred to the fallopian tube before cell division occurs. The intent of this procedure is to have the zygote travel to the uterus via the fallopian tube.
5. Lifetime benefit maximum is individually cumulative for the Member over one or more UnitedHealthcare plans. Any Member that terminates from a UnitedHealthcare Health Plan with a lifetime benefit maximum, and subsequently re-enrolls in another

UnitedHealthcare Plan with a lifetime benefit maximum, will carry over any previous benefit utilization calculated by his or her previous UnitedHealthcare benefit coverage into the new UnitedHealthcare Benefit plan. In the event the Member has exhausted the lifetime benefit maximum on the previous UnitedHealthcare Health Plan, the Member is no longer eligible for any further benefits.

UnitedHealthcare SignatureValue™ Offered by UnitedHealthcare of California

HMO Pharmacy Schedule of Benefits

Summary of Benefits	Generic Formulary	Brand-name Formulary	Non-Formulary
Retail Pharmacy Copayment (per Prescription Unit or up to 30 days)	\$10	\$25	\$50
Mail Service Pharmacy Copayment (three Prescription Units or up to a 90-day supply)	\$20	\$50	\$100

This Schedule of Benefits provides specific details about your prescription drug benefit, as well as the exclusions and limitations. Together, this document and the Supplement to the *Combined Evidence of Coverage and Disclosure Form* as well as the medical *Combined Evidence of Coverage and Disclosure Form* determine the exact terms and conditions of your prescription drug coverage.

What do I pay when I fill a prescription?

You will pay only a Copayment when filling a prescription at a UnitedHealthcare Participating Pharmacy. You will pay a Copayment every time a prescription is filled. Your Copayments are as shown in the grid above.

There are selected brand-name medications where you will pay a generic Copayment of just \$10. A copy of the Selected Brands List is available upon request from UnitedHealthcare’s Customer Service department and may be found on UnitedHealthcare’s Web site at www.uhcwest.com.

Preauthorization

Selected generic Formulary, brand-name Formulary and non-Formulary medications require a Member to go through a Preauthorization process using criteria based upon Food and Drug Administration (FDA)-approved indications or medical findings, and the current availability of the medication. UnitedHealthcare reviews requests for these selected medications to ensure that they are Medically Necessary, being prescribed according to treatment guidelines consistent with standard professional practice and are not otherwise excluded from coverage.

Because UnitedHealthcare offers a comprehensive Formulary, selected non-Formulary medications will not be covered until one or more Formulary alternatives, or non-Formulary preferred drugs have been tried. UnitedHealthcare understands that situations arise when

it may be Medically Necessary for you to receive a certain medication without trying an alternative drug first. In these instances, your Participating Physicians will need to provide evidence to UnitedHealthcare in the form of documents, lab results, records or clinical trials that establish the use of the requested medications as Medically Necessary. Participating Physicians may call or fax Preauthorization requests to UnitedHealthcare. Applicable Copayments will be charged for prescriptions that require Preauthorization if approved.

For a list of the selected medications that require UnitedHealthcare’s Preauthorization, please contact UnitedHealthcare’s Customer Service department.

Chiropractic and Acupuncture Schedule of Benefits

Offered by ACN Group of California, Inc.

Benefit Plan:

\$15 Copayment per Visit

20 Visit Annual Combined Maximum Benefit

Your Employer Group makes available to you and your eligible dependents programs that are included as part of your coverage for chiropractic and acupuncture. This program is provided through an arrangement with the ACN Group of California, Inc. d/b/a OptumHealth Physical Health of California (OptumHealth).

How to Use the Program

With this benefit, you have direct access to more than 3,000 credentialed chiropractors and over 950 credentialed acupuncturists servicing California. You are not required to pre-designate a participating provider or obtain a medical referral from your primary care physician prior to seeking chiropractic or acupuncture services. Additionally, you may change participating chiropractors or acupuncturists at any time.

If these services are covered services, you simply pay your copayment or coinsurance at each visit. There are no deductibles or claim forms to fill out. Your participating provider coordinates all services and billing directly with OptumHealth. Members are responsible for any charges resulting from non-covered services.

Annual Benefits

Benefits include chiropractic and acupuncture services that are medically necessary services rendered by a participating provider. In the case of acupuncture services, the services must be for a medically necessary diagnosis. Treatment is to correct body imbalances and conditions such as low back pain, sprains and strains (such as tennis elbow or sprained ankle), nausea, headaches, menstrual cramps and carpal tunnel syndrome.

In the case of chiropractic services, the services must be for a medically necessary diagnosis and treatment to reduce pain and improve functioning of the neuromusculoskeletal system.

Calculation of Annual Maximum Benefit Limits

Each visit to a participating provider, as described below, requires a copayment by the member. A maximum number of visits per year to either a participating chiropractor and/or participating acupuncturist will apply to each member.

Chiropractic Services: Adjunctive therapy is allowed at each office visit. If adjunctive therapy is provided without a chiropractic adjustment, the adjunctive therapy will count as an office visit toward the maximum benefit. If an examination or re-examination is supplied without an adjustment, the examination or re-examination will count as an office visit toward the maximum benefit.

Acupuncture Services: Adjunctive therapy is allowed at each office visit. If adjunctive therapy is provided without acupuncture treatment, the adjunctive therapy will count as an office visit toward the maximum benefit. If an examination or re-examination is supplied without acupuncture treatment, the examination or re-examination will count as an office visit toward the maximum benefit.

Provider Eligibility

OptumHealth only contracts with duly licensed California chiropractors and acupuncturists. Members must use participating providers to receive their maximum benefit.

Types of Covered Services

Chiropractic Services:

An initial examination is performed by the participating chiropractor to determine the nature of the member's problem, and to determine medically necessary services to the extent consistent with professionally recognized standards of practice. At that time, a treatment plan of services will be provided. The initial examination will be provided to a member if the member seeks services from a participating chiropractor for any injury, illness, disease, functional disorder or condition.
